THIS ELEGANT AND CAPACIOUS HOTEL, ranking in the first order of Summer Establishments, formerly occupied by Joseph B. Weaver, Esq., will open for the season on the above day, under new and most favorable auspices.

The new proprietor solicitous of public patronage and desirous of meriting it, has spared no expense in refurnishing, embellishing and making additional convenience for the greater comfort of sojourners.

Appreciating fully the importance of a right selection of assistants, he has been most particular to obtain the right persons for the right places, and he feels assured from the rigid enquiries made as to the capacity, sobriety and zeal of his employees, that he will succeed in securing the approbation of those who may patronize the Atlantic.

He will avail himself of the abundant markets of New York, to furnish with its choicest provisions the tables of the Hotel, and in the preparation of the meals and table service he intends that it shall be second to no Establishment in the country.

The location of the Atlantic is preeminently beautiful—commanding an immense Oceanic View and its immediate surroundings of rare excellence, particularly the fine Park, stretching along the extensive Hotel frontage.

AMERICAN & FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practicioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Said Wharf Lot is fifty feet on Washington Street, running south to lot No. 2, then west sixty feet, then south fifty feet, then west, to the Channel of the Harbor, which makes it one hundred feet on the west end, or one hundred feet wide its entire length, with the exception of sixty feet.

This wharf has many advantages over any other in Newport, both from its superior depth of water and its peculiar situation, being hemmed in on all sides from wind or sea, and a sail vessel could get under weigh with any wind, and go to sea from the head of the wharf. For further particulars inquire of the subscriber, at 95 Thames Street.

Miscelaneous.

DR. MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion of Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice, experience has proved that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of **General Debility**, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land.—Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In **Nervous Affections** of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In **Dyspepsia**, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked **Diarrhœa**, even when advanced to **Dysentery**, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate **Incipient Consumption**, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In **Scrofulous Tuberculous**, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodnie, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this *remedy* and *restorative*, in the cases peculiarly affecting them.

In **Rheumatism**, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In **Intermittent Fevers**, it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed

REPUBLICAN NOMINATION.

FOR PRESIDENT,
Abraham Lincoln,
OF ILLINOIS.

FOR VICE-PRESIDENT,
Hannibal Hamlin,
OF MAINE.

The Fall River Line of Steamers:

The exemption of the boats of this line from accidents, except such as fall to the lot of all steamers, being unavoidable by any possible foresight, has been a subject of remark, having extended along a term of some thirteen years. Notwithstanding they have the most exposed route, for nearly forty miles of the distance, of any of the various competing lines, and having to face the very roughest of weather, such has been the excellent management on the part of the officers and crews, that the passages have always been made with entire safety to those on board.

The excellence of this management extends from the owners down to the lowest subordinate on board. In the first place the boats are the very best that could be constructed of wood and metal, built with special reference to the exposed route on which they have been placed, and as often as once a year thoroughly overhauled and refitted, the weak points strengthened, and in every respect made as good as new. No neglect of duty or relaxation of vigilance, on the part of the subordinates on these boats, is tolerated for a moment, the delinquent being promptly discharged. Nor is this care and attention suffered to stop here, but applies alike to the comfort and gratification, as well as the safety of the passengers.

No one with ordinary observational predilections, can have failed to notice this peculiarity on board the Metropolis, the favorite boat with the traveling public. There are employed on this boat, all told, some eighty persons. Each man and woman of these have their specific duties which they are expected to perform, and all under the general supervision of Captain Brown through his subordinate officers. There is the Pilot's crew, the Mate's crew, the Steward's, and the Engineer's. The skill and judgment of the pilots, in particular, is worthy of remark. It frequently happens, during thick and foggy weather, that nearly all the lights are shut out from view, making it necessary to rely upon the compass alone, with strong winds and counter currents constantly operating to set them aside. There is one stretch, if we mistake not, in thick weather, of some forty miles, where no light is seen, and yet so well versed are these men in all the duties of their profession, that they very seldom fail of keeping their course from light to light; and should any doubt arise, the engines are slowed down at once and the speed slackened until they are assured.

Another precaution, and one which is most rigidly observed, is against fire, in furtherance of which a man is kept constantly on duty during the night, going the rounds of the boat to detect the least possibility of danger from that source. Another man is kept constantly on the lookout on the fore [illegible] vessels, and thus avoid collisions, while others, in the Engineer's department, keep a strict supervision over the machinery.—Watchmen are likewise on duty in the saloons, ready to administer to the slighest wish or necessity of those in their department.

In the Steward's department, (under the supervision of Mr. George A. Rice, of this city,) are some twenty or thirty individuals, whose duty it is to attend upon the tables and arrange the state-rooms and cabins.—This department, too, is managed with the strictest regard to the comfort and convenience of passengers. No one who has had occasion to sit down at the bountifully spread tables, or pass a night in the berths or state-rooms of these boats, can have failed to find in them all the comfort and conveniences of a first class hotel. Mr. Rice stands justly at the head of his profession as a caterer, and his name is always suggestive of good living.

Last, but by no means least, we may mention the Clerk, Col. Stephen A. Davol, who stands quietly in his office, his smiling countenance visible through the little window where are dispensed those essential bits of pasteboard, and with grace and courtesy which moves upon the soul and warms up the heart. Whether it is a berth or stateroom that is wanted, the best is at your disposal.

With all these appliances for safety and comfort there is no marvel that this line should rank A 1 in popular estimation, or that the travelling public should feel perfectly at ease under all circumstances on board their boats.

The Cattle Disease.

EDITOR OF NEWS:—The following clairvoyant Diagnosis of the dreaded Cattle Disease, and prescribed remedies may serve to amuse if not instruct your readers. The communication was given through the mediumship of Mr. John Grinnell, of this city, whose organization seems peculiarly adapted for the examination and healing of diseases through spirit ministration, as very many can bear witness. I have witnessed scores of instances where the medium's clairvoyant diagnostics have been strikingly confirmed, and wherein the prescribed remedies have been eminently successful. How far these may be reliable when applied to the lower animals of the earth, remains to be proved; but I shall esteem myself amply rewarded for this exposure of my name to the charge of weakness and delusion, should it be the means of stimulating the people of this vicinity to adopt (if possible) sanitary measures to protect the herds of our luxuriant and beautiful island from falling a prey to a scourge that has at times desolated continents.

THOS. R. HAZARD.

DISEASE.—similar to the Dry Murrain; preceded by fever and loss of appetite; great overflowing of the gall; suffusion of the liver and lungs with putrid, frothy matter of a dark yellowish cast; fever increases, with dryness and constipation of bowels; within 24 or 48 hours after reaching the lungs, mortification and death ensues.

Post Mortem examination exhibited the lungs much swollen and as if parboiled, full of ulcers and dark yellowish matter mingling with the gall and liver, exceedingly putrid and offensive, looks something like the cholera. Animals should be buried quickly, as the disease may be communicated in the air. Persons should be careful in handling diseased parts, as it may be communicated to the human system by inoculation. Thinks the disease is being got under.

REMEDY.—One pint hog's lard, three table spoonsful of gun powder. If not sufficient to move the bowels, repeat the dose. In all cases bleed pretty freely in the neck.

ANOTHER.—4 ounces sulphur, 4 do Glauber salts, 4 do salt petre, pulverized and mixed well together; give one table spoonful at a time until it physics well. Bleed in the neck as before.

ANOTHER.—2 quarts whiskey, 1 ounce salt petre, 1 do copperas, 1 do assafœtida, 1 do sulphur, small handful of dogwood bark well pulverized, mix and simmer down to one quart. Give table spoonful every twenty minutes. Bleed in the neck as before.

Mr. Andrew of Boston, who went to Springfield Ill., in his capacity of Chairman of the Massachusetts delegation to Chicago, thus describes the impression produced on him by Mr. Lincoln:

"At Springfield we saw him, and all there was of him [laughter]; and it was no difficult matter for any man to catch a sight of that honest and intellectual face; for he stood, like Saul among his veterans, head and shoulders above every man.—[Cheers.] I tell you, fellow-citizens, that a man six feet and four inches high, is to be found seldom anywhere off of a prairie. It is a way they have of looking up and seeking over, for they are always aspiring to look beyond the horizon. Do you ask what sort of a man is Abraham Lincoln? I suppose no man here asks that question who has read his speeches—one of the leading men of the West—as a counselor and barrister standing first among all his peers—as a citizen, admired and loved and revered for all the virtues that become and adorn the man. He has a countenance which bespeaks the benignity and beauty of a noble soul. My eyes were never visited with a vision of a human face in which more transparent honesty and more benignant kindness were combined with more of the intellect and firmness which belong to masculine humanity. [Applause.] I would trust my case with the honesty and with the intellect, with the heart and with the brain of Abraham Lincoln as a lawyer; and I would trust my country's cause in his care, as its chief magistrate, while the wind blows and the water runs."

AN INCIDENT OF LINCOLN'S BOYHOOD.—We have heard, says *The Evansville* (Ind) *Journal*, the following anecdote related of the people's candidate for the Presidency, which shows the love of knowledge, the industry, the conscientiousness, and the integrity of the subject of this sketch:

"It is well known that he lived in Spencer County, above here in Indiana, in his young days. He was a hard working lad, and very eager in his thirst for knowledge. A man named Crawford, owned a copy of 'Weems' life of Washington'—the only one in the whole neighborhood. Young Lincoln borrowed the interesting book, (not having money to spare to buy one), and while reading it, by a slight negligence left it in a window, when a rainstorm came up and wet the book so as to ruin it. Young Lincoln felt very badly, but, like an honest boy, he went to Mr. Crawford with the ruined book, acknowledged his accountability for its destruction, and his willingness to make due compensation. He said he had no money, but would work out the value of the book.

"The owner of the book said to him: 'Well, Abe, being as its you, I won't be hard on you. If you will come over and pull fodder for two days I'll let you off.'

"Abe went over accordingly, and pulled fodder the requisite time; and so tall and handy a lad was he, that Crawford required him to pull the fodder off of the tallest stalks, while he took the shortest ones himself."

SENATOR SEWARD AND THE CHICAGO NOMINATION.—The following from the Auburn *Daily Advertiser* of Saturday is said to have been written by Senator Seward:

"We place the names of Lincoln and Hamlin at the head of our columns, with pride and satisfaction. No truer exposition of the Republican creed could be given, than the platform adopted by the Convention contains. No truer or firmer defenders of the Republican faith could have been found in the Union, than the distinguished and esteemed citizens on whom the honors of the nominations have fallen. Their election, we trust, by a decisive majority, will restore the Government of the United States to its constitutional and ancient course. Let the watchword of the Republican party then be union and liberty, and onward to victory.

AN IRISHMAN'S WAY OF TRYING THE GAS.—A man by the name of James O'Brien, living in Mentz, undertook to clean out his well on Monday last, and found that it would be necessary for him to enter the well. He had read enough of gases to know that if a candle was extinguished when let into the well, it would not be exactly safe for him to go down. He therefore procured a candle, put a rope round the shoulders of his boy a lad twelve or fourteen years of age, gave him a lighted candle and let him down. He had hardly disappeared below the surface, when O'Brien felt "something drop," and pulling violently at the rope brought his boy up, the candle and boy both extinguished. By the free use of fresh water and considerable rubbing the boy was relighted. O'Brien concluded it was not very safe for *him* to go down.—*Auburn (N. Y.) Advertiser, May* 18.

The Norfolk *Day Book* tells the following big fish story:—"The fisheries of the Eastern Shore of Virginia have been remarkably successful this season, such quantities having been taken that it has been found impossible to preserve them; the consequence is that large quantities have been carted up on the adjacent farms as manure. At one haul last week two thousand bushels of trout were pulled up. The seine stopped in six feet of water, and it being impossible to land such an immense quantity, the seine had to be opened that a portion might escape. One half were accordingly let out, and one thousand bushels pulled ashore. This occurred in Northampton."

Mr. Solomon Ross, an old soldier of the war of 1812, died in Salem, Iowa, on the 16th ult. Mr. Ross was a native of New York city, was in the battle of Queenstown Heights, Lundy's Lane, and others. He was twice severely wounded, was twice taken prisoner—once at each of the above named battles. Once he was exchanged, and he escaped once, and in his escape he captured an Indian chief, and brought him into the American camp.

SENTENCE OF HICKS THE MURDERER.—Albert W. Hicks, who was arrested in Providence for murdering the crew of the oyster sloop E. A. Johnson, was on Friday sentenced by Judge Smalley to be hung on the 13th of July on Bedloe's Island in New York Harbor. The District Attorney, in moving the sentence, and the Judge in delivering it, alluded to the peculiar enormity of the crime. Hicks preserved his usual stolid demeanor.

The Savannah *Republican* announces the nomination of *Levi* Lincoln for President.

A negro in Fayetteville, Arkansas, has been hung for killing his master. His mistress said she would rather have lost all she was worth than the negro.

Mrs. Betsey Harwood, an old lady of about 60 years, committed suicide at North Bennington, Vt., on Wednesday night, by hanging herself from a bedpost.

A Codfish, five feet three inches long, was caught off Marblehead last week, and the shell of a clam dug on Newburyport flats measured nine and a half inches.

A boy named Timothy Brunson was killed upon the draw of the bridge at Troy, Friday afternoon, while riding upon it.—His leg came in contact with the track, crushing it to atoms. He died soon after.

A young man of 19 attempted to laudanum himself to death, the other night, in Syracuse, because he, Barney Smears, aged 19, loved she, Mary Starks, aged 40, who loved some one else.

Upon opening the letter mail pouch from Elkton at Chestertown, Md., on Friday night last, a live cat tumbled out, to the amazement of the P. M., who was much puzzled to know what official disposition to make of the animal.

Henry Rock, of La Crosse, was accidentally shot, on Tuesday, by a revolver in the hands of Henry Andrews. The ball entered his mouth passed through his tongue, and lodged in the back of his neck, just behind one of his ears.

Since January, five vessels, with their crews, have been lost in the Georges fishery, and within the past 30 years, over 30 vessels and two thousand men have been lost in this hazardous branch of the fishing business.

Some six months since, Leonard Edwards, of Troy, lost a valuable gold watch, which he had laid upon a stand on retiring. A few days ago, he found it snugly stowed away in a rat-hole.

Mrs. Jane Swisshelm, of the St. Cloud (Minn.) *Visitor*, thus "does up" the late prize fight: They rattled their "fives;" they "milled and milled," and plenty of dirty "claret" they spilled; but the thing was a failure, for neither were killed.

Among the preparations making for the reception of the Prince of Wales, the Great Western Railway Company, the Grand Trunk Railway, and the Buffalo and Lake Huron Railway Company are all building elegant cars for his special use.

Mr. E. E. Bailey, of Claremont, N. H., took a keg full of apples, last fall, which he securely headed up, and sunk to the bottom of a deep mill pond. On bringing them up to the surface a few days ago, every apple was found to be quite free from speck or rot, and as sound and unwrinkled as when taken from the tree.

New Orleans must be a pleasant abiding place in warm weather. Last week one Thomas Toby jumped from the third story of a house and was seriously injured. The only reason he could assign for the act was that the mosquitoes frenzied him so that he threw his bedding out of the window and followed after it!

A young man, named Frank Stanhope, attended an Irish dance, in Conway, Mass., a few evenings since, and while dancing and playing a flute at the same time, fell dead upon the floor. The selectmen suspected foul work, and had his body disinterred, when it was found an artery had been broken near the top of the head, which probably caused his death.

The Japanese at Washington, especially those of lower rank, complain of the manner in which they are exhibited. The public, it is true, are kept at distance, but the officers in charge do not hesitate, to take their friends from room to room, without thinking to inquire whether it is agreeable to the inmates. So that the poor Japanese say that, whether eating, talking, dressing, washing, or sleeping, they are constantly subject to annoying intrusion.

Mr. Wyett Moore, an old gentleman, while walking in Chartres street, N. O., on the 24th ult., was met by a drunken woman who seized him by his coat sleeve, tearing it, and knocking his hat off. After regaining his hat he passed on but soon after discovered that he had lost a package of papers worth $16.000. He immediately went in pursuit of an officer who overtook and arrested the woman, when the papers were found in her possession and restored to Mr. M.

This SPECIALITY embraces all diseases of the Genito-Urinary Organs, such as Syphilis, Gonorrhoea, Gleet, Strictures, &c., &c. Also all diseases caused by VENEREAL EXCESSES, as Genital Debility, Spermatorrhoea, Impotency, Nervous Debility, causing wasting of the flesh, confusion of thought, loss of memory, inaptitude for business, depressed imagination, dread of impending evil, gloomy apprehensions, despondency, melancholy, and in the end INSANITY. Also, all diseases peculiar to FEMALES.

DR. M. is a thoroughly educated physician, of twenty years practice, giving his WHOLE ATTENTION to the above named diseases. Persons at a distance, therefore, having any important and difficult case in this SPECIALITY, will save much time and expense by applying either personally or by letter to the REMEDIAL INSTITUTE

A WORD TO INVALIDS.

All who have any secret or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the CHOICE OF A PHYSICIAN. And first, LET ALL QUACKS, IMPOSTERS AND HUMBUGS ALONE. If you have an intelligent physician in your vicinity apply to him, and follow his direction for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a SPECIALITY, for no physician in general practice, no matter how eminent, can treat a given disease or class of diseases as successfully, as one of the same ability who devotes his whole attention to them. Educated physicians, hitherto, have stood aloof from making a speciality of private diseases, and hence, they have been monopolized by quacks. The fear of being caste in society, or of being classed among charlatans by the profession, has too long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases as a speciality, that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make PRIVATE DISEASES a speciality, and yet, they have a fame as enviable as it is world wide. In fact, it is the only remedy for one of the most heinous and destructive systems of quackery in private diseases, as practiced in all the larger cities throughout the country.—But to return. I said let quacks and imposters alone. Their advertisements fill the newspapers, and are well calculated to deceive the inexperienced, made up as they are of the most extravagant PRETENSIONS, but without a shadow of an EVIDENCE of the truth of what they say. Advertising in itself is no sin, but DECEPTIVE advertisements are an abomination; and no advertising physician is entitled to ANY CONFIDENCE WHATEVER, who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a speciality which has heretofore been almost exclusively in the hands of impostors, I ask no man to employ me who by the references and testimonials that I shall give, is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy and permanent cure.

ST. NICHOLAS HOTEL, Broadway, New York.

WHEN COMPLETED, six years ago, the St. Nicholas was universally pronounced the most magnificent, convenient, and thoroughly organized establishment of the kind on this continent. What it was then it remains to-day—without a rival in size, in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the travelling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad, derived from its magnitude, its superb appointments, and its home-like comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

WATER OIL!!

HEBARD'S PATENT WATER OIL, to burn in Kerosene Lamps, without the smell and smoke of the Coal Oils, is the greatest artificial light yet discovered. It gives a steady, clear, soft light and does not choke the lungs with foreign matter, such as results generally from using Rosin and Kerosene Oils or Coal Gas.

The flame can be regulated to afford any amount of light desired, from that of the large solar lamp to the feeblest taper. We therefore claim for the Water Oil the following as some of its leading characteristics:—

1. It emits no foetid odor.
2. It will burn in Kerosene Lamps without alteration.
3. It is essentially an Oil, and yet will not grease the most delicate fabric.
4. It is less volatile than other oils, consequently will not consume as rapidly.
5. The flame is more purely white and soft than that of any other Oil or Fluid. Therefore less injurious to the eyes.
6. The wick may be raised to a great height and breadth, giving an immense illuminating power without producing smoke.
7. Its great specific gravity renders it not only safe, but the most economical Oil in existence.
8. It does not crisp the wick like Oils, nor deposite any carbonaceous fuel upon it.
9. It does not waste, as every globule of Oil and every particle of Water is entirely consumed.

The following is the Certificate from Dr. Hayes, on the illuminating power of the WATER OIL as compared with the best article of Kerosene Oil in the market:—

16 BOYLSTON STREET, 14th Feb. 1860.

Results of comparison of the light of two lamps, one fed with Kerosene Oil, and the other with Water Oil, furnished by B. F. Hebard.

The Kerosene Lamp when lighted soon increased its volume of flame, so as to present a dull halo above the brilliant part; it was adjusted to the highest point without producing smoke. On lighting the lamp fed with Water Oil, it was found that its flame was luminous and might be much extended, without the production of smoke. A definite point perfectly practical, was reached, when the Kerosene Lamp being 103, the Water Oil Lamp afforded the light of 132, without a trace of smoke emitted. The Water Oil permits of any diminution in the flame without loss of economy.

Respectfully,
A. A. HAYES, M. D., State Assayer.

A CARD TO THE LADIES.

DR. DUPONCO's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. HOWARD ASSOCIATION,
PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge**. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhoea, Seminal Weakness, Impotence, Gonorrhoea, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and much despised cause.

An admirable Report on Spermatorrhoea, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun**, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors,

GEO. FAIRCHILD, Secretary. dau

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as [illegible] NY'S FIRE, ROSE, OR ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

It so arranged that Patients never see or hear each other. Recollect the ONLY entrance to his office is No. 181 High street, having no connection with his residence, consequently no family interruptions; so that on no account can any hesitate applying at his office.

DR. CUDWORTH

Boldly asserts (and it cannot be contradicted, except by Quacks, who will say or do anything, even perjure themselves, to impose upon patients) that he is

THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN PROVIDENCE,

SIXTEEN YEARS

Engaged in the treatment of Special diseases; a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors &c., that he is much recommended, and particularly to

STRANGERS AND TRAVELERS.

To avoid and escape Imposition of Foreign and Native Quacks, *more numerous* in Providence than most other large cities,

DR. CUDWORTH

Proudly refers to Professors and Physicians; many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know *little* of the nature and character of Special Diseases and *less* as their cure. *Some* exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; *others* exhibit Diplomas of the dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

Through false Certificates and References, and recommendations of their medicines *by the dead*, who cannot expose or contradict them: and who, besides, to further their imposition, copy from Medical books much that is written of the qualities, and effects of different herbs and plants, and ascribe *all the same* to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c.; so the Nostrum maker, equally ignorant, adds it to his so-called Extract, Specific, Antidote, &c.; relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, *alas!* nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer months or years, until relieved or cured by competent Physicians.

DR. CUDWORTH'S

Charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence whatever may be the disease condition or situation of any one, Single or Married.

Medicines sent by Mail and Express to all parts of the United States.

Coal, Stoves, &c.

CITY COAL YARD.
LYKENS VALLEY FRANKLIN COAL.

The subscribers take this method of returning thanks to their many patrons for the increased orders from year to year, for their LYKENS VALLEY FRANKLIN COAL.

The mines from which this Coal is taken were never in so promising a condition as at present, and such improvements have been made for preparing and screening it as warrant us in saying that we believe the Coal will be shipped in better order than ever before.

The superior quality of the Franklin Coal having become fully established, the demand has rapidly increased, and an evidence of its great popularity is the fact that several dealers have adopted its name in full or in part; thereby hoping to introduce other kinds of inferior Coal by which the public have often been deceived.

Waiting your favors, we are
Respectfully Yours,

CAUTION.

Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets. The country is flooded with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in them—Capital Prizes of from $20,000 to $40,000 head their schemes—with Tickets at One Dollar. $100,000 Capital Prizes are offered. Tickets $5. All such, in every instance, are frauds, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of Tickets. In every instance where large Prizes are offered for a small cost of Tickets, put it down for a certain fraud.
